PROJECTS

My portfolio (HTML, CSS, JavaScript)
Link - HTTP://HARDIKSAGGAR.GITHUB.IO/PORTFOLIO/
Description – single page website based on HTML & CSS containing the information, skill stack and links to my projects. Responsive in design and deployed using GitHub pages.

Arcovation (HTML, CSS, BOOTSTRAP)
Link - http://hardiksaggar.github.io/portfolio/
Description – Arcovation is an online presence that seamlessly blends innovation and design excellence. Leveraging the power of bootstrap, i conceptualized and developed an architect's office website that serves as a digital canvas to display our firm's portfolio, services, and philosophy.

Bankist app (HTML, CSS, JavaScript)
Link - http://hardiksaggar.github.io/portfolio/
Description – Built a secure, real-time money transfer website using JavaScript during a Udemy course. Pre-registered users in the script for streamlined transactions. Designed an intuitive user interface for seamless money transfers.
